Bengkel Kepengadilan & Teknikal Catur
MSSPP Tahun 2026

A basic workshop titled “Bengkel Kepengadilan & Teknikal Catur MSSPP” was held at the PCA Center, Prangin Mall (Level 5) on 16 November 2026 to train “junior arbiters and technical officers”. The two-hour program was conducted by International Arbiter, Lim Poay Sim.

Over 30 students from various schools were exposed to the basic elements in chess organisation and technical issues. It’s certainly the right step forward to emphasise on the importance of running a tournament the right way. Start them young!
